

Philips ThermoProtect
Ionic
Hairdryer

1900W
with massaging volume diffuser

HP8233

Fast dry at a lower temperature with ThermoProtect

with massaging diffuser & 7mm styling nozzle.

Protect your hair while enjoying fast drying results. Multiple heat and speed settings give the blow dry you want. Features include ThermoProtect for fast drying at a constant caring temperature, Ionic Care & TurboBoost.

Beautifully styled hair

- Professional 1900W
- Cool Shot sets your style
- Six flexible speed and temperature settings for full control
- Maximizes volume & boosts curls while gently massaging scalp
- Ionic conditioning for shiny, frizz-free hair
- Ultra slim styling nozzle of 11mm for precision styling

Easy to use

- Removeable air flow filter makes cleaning quick and easy
- 1.8 m power cord
- Easy storage hook for convenient storage
- Elegant, feminine design emphasising performance and quality
- Turbo boost for extra fast drying

Less hair damage

- ThermoProtect temperature setting

Highlights

Removeable air inlet filter

The removeable air flow filter of your hairdryer is easy to maintain. Simply click off to clean. Doing this regularly will prevent build up of dust and hair that can affect drying performance.

1.8 m cord

Convenient to use thanks to the 1.8 m power cord length.

1900W

This 1900W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Cool Shot

A must-have professional function, the Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Speed and temperature settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

ThermoProtect

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Asymmetric massaging diffuser

The asymmetric massaging diffuser has a unique asymmetric design that is contoured to the head, making it easier and more intuitive to use. The diffuser spreads the flow of air across the hair, drying hair more healthy, boosting volume and reducing frizz while the addition of massage helps stimulate the scalp and improve hair vitality. For best results, hold close to the crown and root area and let the diffuser's massaging textured pins encourage volume, add bounce and shape curls.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.
